Price	<b>9.99 GBP</b>
Availability	<b>Always on stock</b>
Shipping time	<b>3 days</b>

### Product description

Professional marker for surveying, construction, and forestry.

Perfect for works directly on the ground even in difficult weather conditions. Perfect for works on surfaces like: asphalt, wood, metal, concrete, glass, stone. Application: land and water constructions, building of roads and highways, power lines, pipe lines, water supply systems, archeology, warehouse works, marking dangerous places of architecture, forestry and cutting down the trees.

### Notice:

For painting larger surfaces (not only for marking) white primer should be used. For achieving more intense colour and additional protection you should use Decoration clear / Acryl car line clear.

Best result when applied at 10-25°C.

360° nozzle and special valve allows applying in every position (even upside down)
