FluoMarker - line marker

Price	9.99 GBP
Availability	Always on stock
Shipping time	3 days

Product description

Professional marker for surveying, construction, and forestry. Perfect for works directly on the ground even in difficult weather conditions. Perfect for works on surfaces like: asphalt, wood, metal, concrete, glass, stone. Application: land and water constructions, building of roads and highways, power lines, pipe lines, water supply systems, archeology, warehouse works, marking dangerous places of architecture, forestry and cutting down the trees.

Notice:

For painting larger surfaces (not only for marking) white primer should be used. For achieving more intense colour and additional protection you should use Decoration clear / Acryl car line clear. Best result when applied at 10-25°C.

360° nozzle and special valve allows applying in every position (even upside down)
Ergonomic head
Very good covering
Short drying time: 10-15 min
Touch dry: 20-30 min; Hardened: 18-24 h
Efficiency 2,2-2,5 m² depending on colour and type of surface by one application
Weather condition resistance
Offer in 8 most common colours
For indoor and outdoor use
Capacity 500 ml

Usage:

Before applying read carefully instructions on the container and use according to the manufacturer's recommendations.
